

## Certified Administrator Training 1

detecting risk

Learn how to set up all users correctly and how to make changes in the codes used in Synergi®!

Operating Synergi® correctly, dedicated technical personnel needs to administrate Synergi® to insure full control over the software.

### CURRICULUM

---

This course is for technical / HSE personnel who will be operating the administration application.

The training helps you organise all units in the best way and make sure that all locations are in place. It is an advantage to have some experience with Synergi® and other software/programs.

The course is technical and all training material is in English.

- Introduction to the structure of Synergi®
- Administration of users
- Administration of User groups
- Administration of Roles
- Administration of code tables (units, location, companies, equipments etc.)

#### Purpose

Learn how to handle the administration of the daily work with Synergi®

#### Target Group

Technical / HSE personnel

Introduction to Synergi® is highly recommended before attending CAT-1

#### Duration

2 days

1 final exam
