

# Hess Corporation

**Hess Corporation understands the importance of responsible Environment, Health and Safety (EH&S) management to their growth, profitability and long term success. That`s why they chose Synergi®.**

## Benefits of Synergi® for Hess Corporation

- Synergi® provided a configurable and user friendly platform for a global EH&S management solution.
- Synergi® provides Hess with EH&S data in a much more timely and effective fashion.
- Synergi® makes measuring of risk factors possible, and thereby lays the grounds for improvements.

"Synergi® provides us with real time reporting of EH&S issues and the opportunity to learn from each other. Additionally, Synergi provides us with a consistent action tracking and reporting tool which supports continuous improvement. These factors are important aspects of a growing business"

*Mr. Kurt Krieter, Vice President EH&S for Exploration and Production Hess Corporation*

Synergi Solutions AS assigned people particularly for this job. They work continually with a dedicated team of user groups from Hess to implement and improve the system. Synergi Solutions AS is perceived as very responsive and reliable.

Synergi® is Hess Exploration and Production first EH&S Incident Management System to be implemented as a global solution. Through common terminology and rules applied internationally, the principle of reporting and sharing knowledge is very much facilitated. Any end user in Hess can easily look up a case in any part of the world at any given time – without someone first putting together a special report.

Synergi Solutions AS is always actively involved in assisting their customers putting Synergi® into proper use at all stages. Our HSEQ consultants have considerable experience from oil and offshore, transport and communications, the process industry, the building and construction industry and the public sector, in addition to knowing Synergi® from A to Z.

## About Hess Corporation

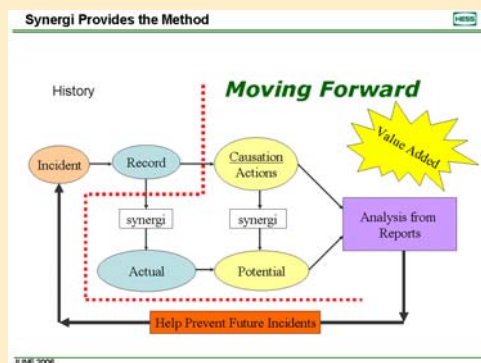

Hess Corporation is a global integrated company, engaged in the exploration for and the production, purchase, transportation and sale of crude oil and natural gas, as well as the production and sale of refined petroleum products.

## Challenge

Achieving prompt reporting and comparable data in a timely and consistent manner.

## Solution

Deploying the software of Synergi® hence manage EH&S proactively instead of reactively.

Synergi® provides the method for improvements within Hess Corporation.

detecting risk
