

Petrofac provides facilities management solutions for the oil & gas industry. We operate in a high risk industry, where the prevention of occupational hazards and major incidents – fires, explosions and oil spills– is fundamental to our business success. Petrofac is a complex company, with complex operations and needed a simple way of collecting HSEQ data.

Benefits of Synergi® for Petrofac

- Increase in client confidence and enhanced corporate image.
- Ability to quickly review completed reports.
- Easy assessment of the quality of investigation and the completeness of the compliance process.
- Data analysis in seconds rather than hours.
- Better root cause analysis.
- Improved logging and tracking of actions to ensure recurrences are prevented.

“We invested in Synergi® to enable us to preserve and enhance our status as a standard setter in HSEQ management. The strength of Synergi® is that it has been developed from ideas by HSEQ professionals using IT experts to deliver their ideas. Many other products are developed by IT experts who look for a market for their skills.”

Mr. Gareth Jones, HSEQ Director, Petrofac

Synergi® will empower Petrofac employees to be more efficient at administration, to do their own analyses at local level. The electronic notification system alerts all locations immediately, i.e. safety alerts do not need to be created.

Synergi Solutions AS is always actively involved in assisting their customers putting Synergi® into proper use at all stages. Our HSEQ consultants have considerable experience from oil and offshore, transport and communications, the process industry, the building and construction industry and the public sector, in addition to knowing Synergi® from A to Z.

About Petrofac

Employs 4500 people in 18 locations worldwide. Petrofac has doubled in size in the past 4 years and continues to grow at a rate of 15% to 25% per year.
